Extension Panel

Run Clips
x30

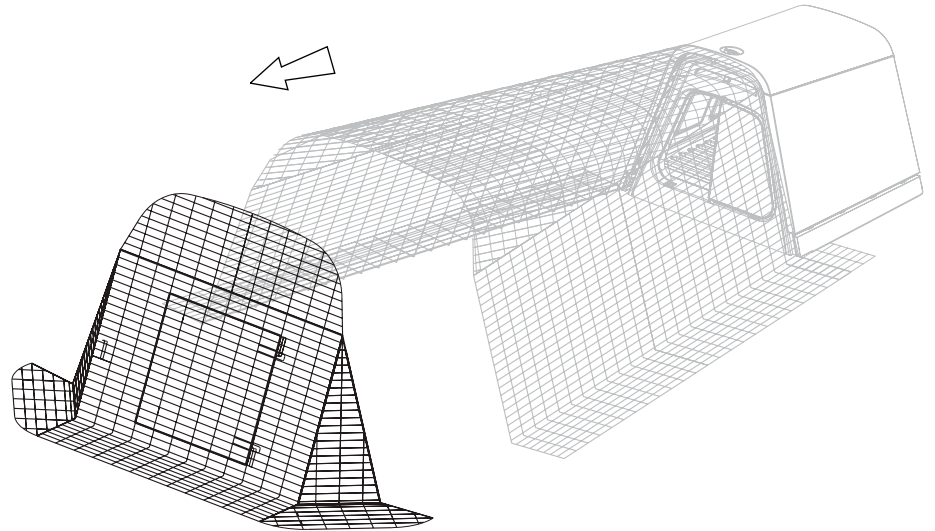

Double Run Clips
x6

Attaching the Run Extension

Step 1. Remove shade and unclip **front end panel, front arch and corner panels**. Keep hold of the clips you undo, you will need them later.

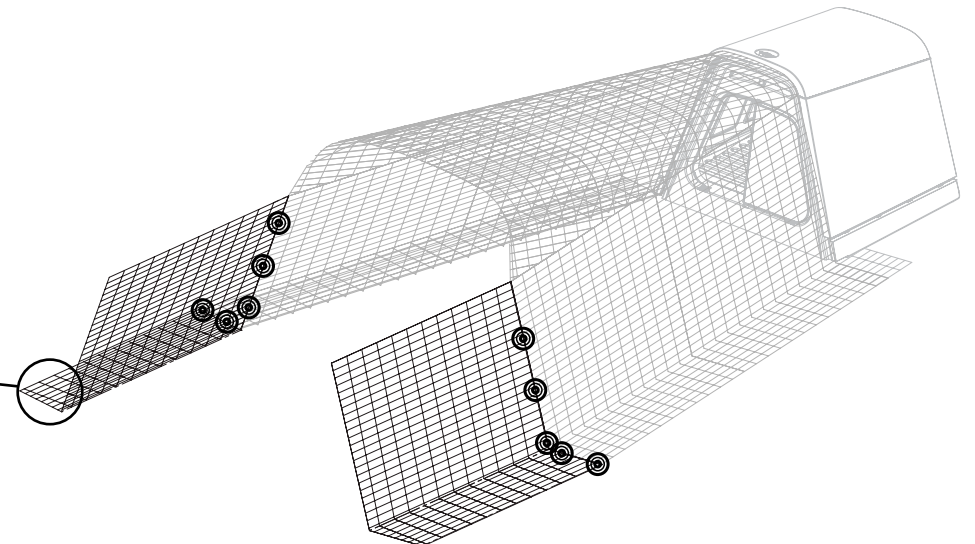

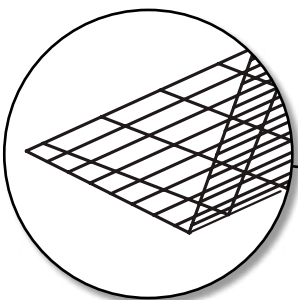

To undo a run clip, twist a coin between the legs as shown.

Step 2. Clip **run extension left and right panels** on side.

⊙ = Run Clips

△ = Double Run Clips

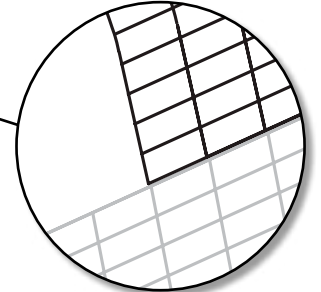

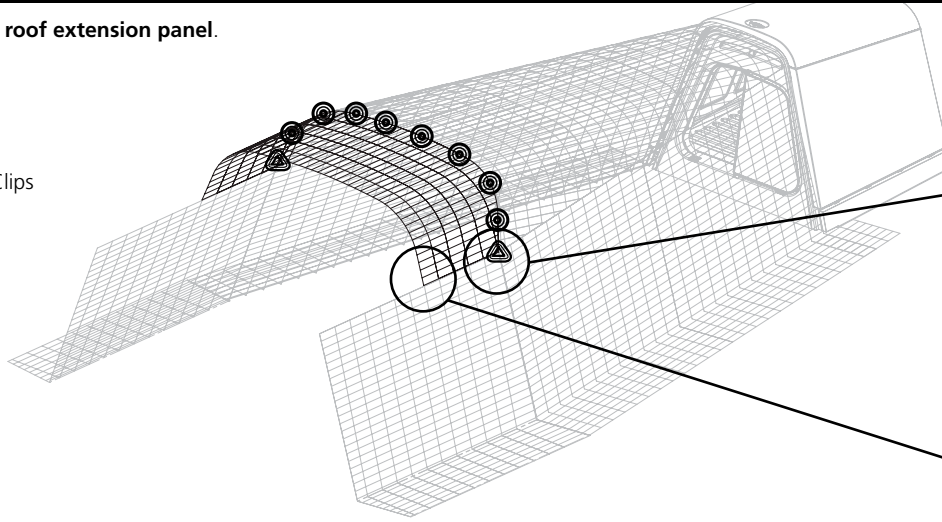

NOTE: The left and right panels are slightly different. Each has an angled front edge.

Attaching the Run Extension

Step 3. Clip on rear roof extension panel.

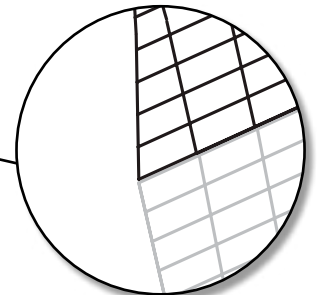

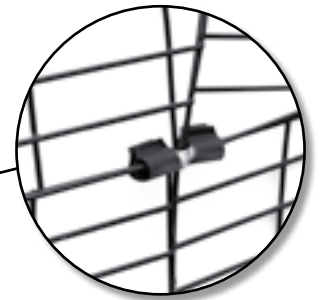

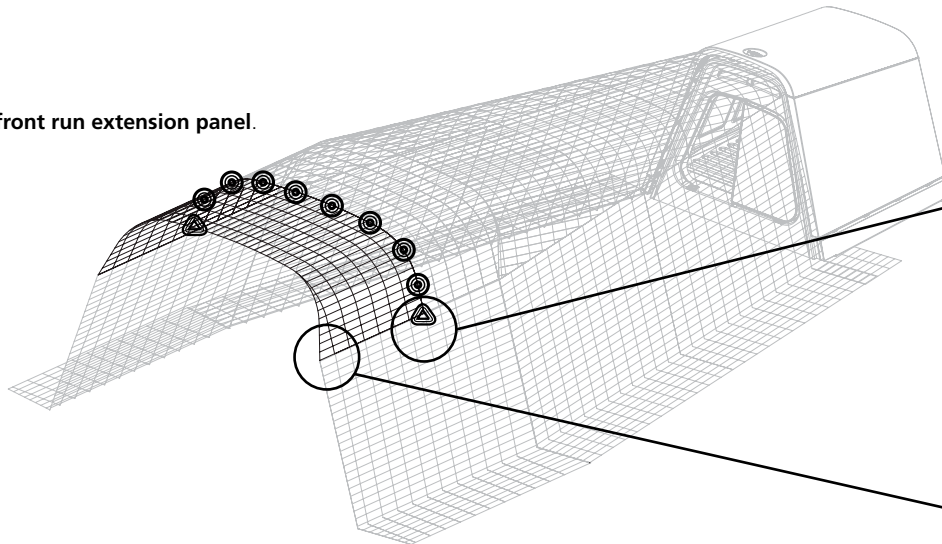

⊙ = Run Clips

△ = Double Run Clips

NOTE: The front and rear run extension panels are slightly different. The rear panel has straight front edges.

Step 4. Clip on the front run extension panel.

NOTE: The front and rear run extension panels are slightly different. The front panel has angled front edges.

Step 5. Replace your front panels that you removed in Step 1.

NOTE: If you have a small amount of run clips left over, use these to secure any extra areas of run if required.
