REPEAT on other side of the run

Now Re-attach your End panel and corner skirts

Eglu Cube 1m Run Extension Instructions

What you have received:

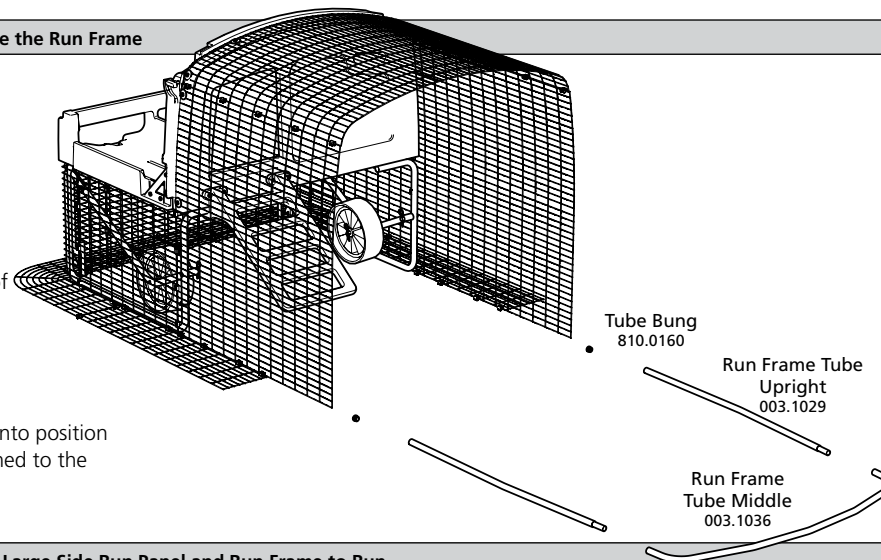

Step A -Unclip the end panel with corner skirts from your Eglu Cube Run

Unclip the end panel with corner skirts from your Eglu Cube Run

Step B - Assemble the Run Frame

Lay the Frame sections on the ground in front of the Eglu Cube. Simply push the tubes together and push a bung into the bottom of each Run Frame Upright.

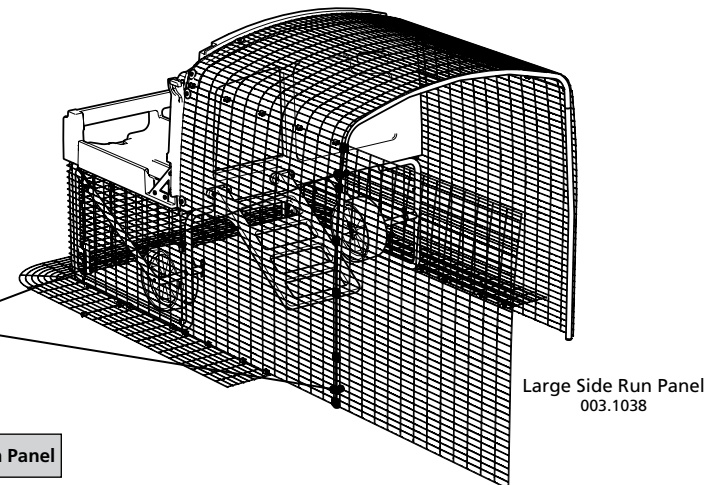

Now swing it up into position ready to be attached to the Run Panels.

Step C - Connect Large Side Run Panel and Run Frame to Run

Clip a Large Side Run Panel to your run using 6 Run Clips

Cable tie the Run Frame to the Run Panels with 2 Cable Ties

Cable Tie
