

# Eglu Go Connection Kit Instructions

What you have received:

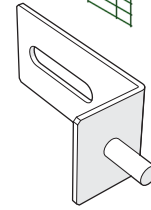

**Bolt x4**  
800.0003

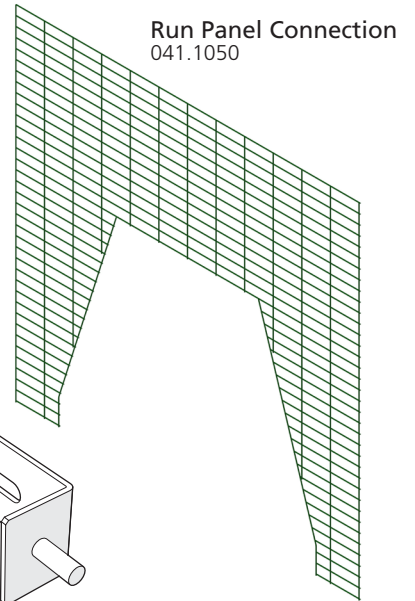

**Washer x4**  
800.0035

**Wingnut x4**  
800.0040

**Connection Bracket x4**  
041.1055

Remove the Outer Lid, Outer Side Panels and Bumpers from your Eglu Go.

Attach the 4 Connection Brackets using 4 Bolts.

Replace a Lower Panel on your Walk In Run with the Run Connection Panel.

Move the Eglu Go so that the threaded part of the Connection Brackets are pushed through the mesh of the Run Connection Panel. Attach to the Walk in Run using 4 Washers and 4 Wingnuts.

Connection Bracket screwed to the Eglu Go

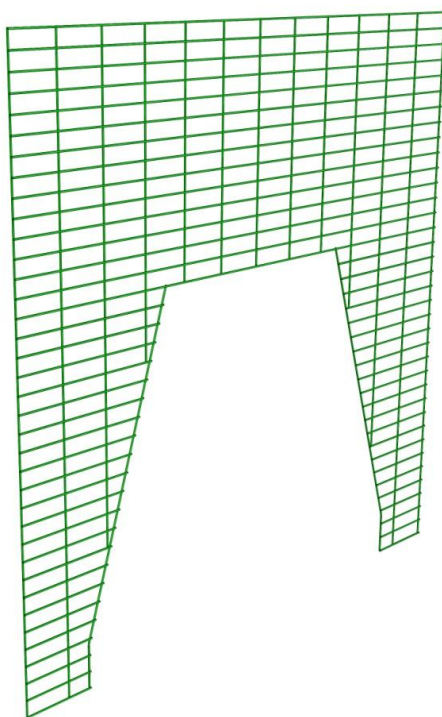

Connection brackets attached to Run with Washers and Wingnuts
