DO collect and enjoy your eggs everyday. Leaving eggs in the Eglu Cube can cause your chicken to go broody and not lay any eggs for a few weeks.

DO make sure your chickens have food and water. Without food and water your chickens will die.

DO let your chickens out of the Eglu everyday. If you are away, then leave the Eglu Cube door open so that the chickens can get out into the run in the morning. Not letting your chickens out will lead to distressed chickens and could lead to terminal overheating.

DO supervise children when they are using the Eglu Cube or interacting with the chickens. Chickens can be unpredictable and peck at anything, including people.

DO take extra care when using the lawn mower around the 'skirt' of the run. Without care you will damage the 'skirt' with the lawn mower.

DO wash your hands thoroughly after coming in contact with the Eglu Cube or chickens.

DO be aware that chickens have sharp beaks and claws and they may peck or scratch at something that resembles food or looks interesting to them. Small shiny things are especially attractive to chickens.

DO check that the run door and rear panel are well secured. If they are not secure your chickens are at greater risk of a predator getting them.

DON'T sit or climb on the run. This is not only dangerous but can lead to the run being damaged.

DON'T let children inside the run or Eglu Cube. This could lead to them getting stuck.

DON'T leave the door of the run open while your chickens roost at night. This will compromise your chickens safety by allowing predators to get into the run.

DON'T keep the Eglu Cube on uneven ground as this will make the run less secure. It can also cause the run 'skirt' to be a tripping hazard.

DON'T use bleach, solvents or strong detergent to clean the Eglu Cube, they could damage the plastic.

DON'T keep the Eglu Cube near sources of ignition, such as a bonfire or barbecue, because they could set the Eglu Cube on fire.

DON'T use the Eglu Cube for anything other than housing chickens. It has not been designed for any other purpose.

DON'T keep more than 6 heavy breeds, 8 medium sized breeds or 10 small breeds in the Eglu Cube with the standard run and extension.

DE • Die Eglu Cube "Do's und Don'ts" •

Sammeln Sie täglich frische Eier ein. Die Eier im Eglu zu belassen kann dazu führen, dass sie von den Hühnern gebrütet werden. Sie werden dann für einige Wochen keine Eier legen.

Stellen Sie sicher, dass die Hühner mit Futter und Wasser versorgt sind, sonst sterben die Hühner.

Lassen Sie die Hühner täglich aus dem Eglu. Wenn Sie einmal nicht da sind, lassen Sie die Tür des Stalles offen, so dass die Hühner am Morgen in das Gehege können. Die Hühner nicht heraus zu lassen kann dazu führen, dass die Hühner gequält und überhitzt werden.

Kinder sollten stets beaufsichtigt werden, wenn Sie am Cube sind oder mit den Hühnern agieren. Hühner können manchmal nach Dingen picken, inklusive Menschen.

Passen Sie besonders gut auf die Fuchssicherung auf, wenn Sie den Rasenmäher nutzen. Das Gitter kann sonst durch den Rasenmäher beschädigt werden.

Waschen Sie Ihre Hände, nachdem Sie mit dem Eglu Cube oder den Hühnern in Kontakt waren.

Sie sollten wissen, dass Hühner scharfe Schnäbel und Klauen haben. Manchmal picken sie nach etwas, was wie Futter oder einfach nur interessant aussieht. Kleine, glänzende Dinge erscheinen den Hühnern besonders interessant.

Stellen Sie sicher, dass die Auslauftür und das Rückteil fest verschlossen sind. Falls dies nicht der Fall ist, laufen die Hühner Gefahr, von Raubtieren angegriffen zu werden.

Sitzen oder klettern Sie nicht auf den Auslauf. Das ist nicht nur gefährlich, sondern kann den Auslauf auch beschädigen.

Lassen Sie niemals Kinder in den Auslauf oder das Eglu. Sie können dort stecken bleiben.

Lassen Sie die Tür des Auslaufs nicht offen, wenn ihre Hühner nachts schlafen. Dies gefährdet die Sicherheit ihrer Hühner.

Stellen Sie das Eglu nicht auf eine unebene Fläche, da es dadurch der Auslauf weniger sicher ist. Außerdem kann die Fuchssicherung dadurch zur Stolperfalle werden.

Nutzen Sie keine Bleichmittel, Lösungsmittel oder scharfe Reiniger zur Reinigung des Eglus, da das Plastik dadurch beschädigt werden könnte.

Stellen Sie das Eglu nicht in der Nähe von potenziellen Zündquellen wie Lagerfeuer oder Grill auf, da diese das Eglu in Brand setzen können.

Nutzen Sie das Eglu nicht für die Behausung anderer Tiere als Hühner. Dafür ist es nicht entworfen worden.

Halten Sie nicht mehr als 6 große, 8 mittelgroße oder 10 kleine Rassen in einem Eglu Cube mit dem standardmäßigen Auslauf.

Collectez et profitez d'œufs frais chaque jour. Attention, ne pas collecter les œufs de vos poules peut contribuer à la diminution du nombre d'œufs pondus.

Faites en sorte que vos poules aient en permanence de la nourriture et de l'eau. Sans nourriture ni eau vos poules vont mourir.

Laissez sortir vos poules de l'Eglu Cube chaque jour. Si, vous partez pour plusieurs jours laissez la porte de l'Eglu Cube ouverte pour que vos poules puissent profiter de l'enclos durant la journée. Si, vous ne laissez pas sortir vos poules du poulailler, elles deviendront stressées.

Soyez attentif lorsque des enfants jouent avec vos poules, ces dernières sont imprévisibles et peuvent picorer toutes sortes de choses incluant des humains.

Faites très attention quand vous utilisez votre tondeuse à gazon près de votre enclos pour ne pas endommager la jute anti-tunnel positionnée au-dessus de la pelouse autre de l'enclos.

Nettoyez-vous les mains après avoir été en contact avec l'Eglu Cube ou vos poules.

Soyez conscient que les poules ont des becs crochus et des griffes et qu'elles peuvent picorer tout ce qui ressemble à de la nourriture. Les petites choses brillantes attirent également leur attention.

Vérifier avec la porte et le plateau extérieur soient bien attachés. Si, ce n'est pas le cas vos poules ont plus de risques de se faire attaquer par des prédateurs.

Ne vous asseyez pas ou ne grimpez pas sur l'enclos. C'est dangereux et cela va abîmer l'enclos.

Ne laissez pas des enfants dans l'enclos ou dans l'Eglu Cube, ils pourraient rester bloqués.

Ne laissez pas la porte de l'enclos ouverte pendant que vos poules dorment la nuit. Cela permettrait à des prédateurs de les attaquer.

N'installez pas votre Eglu Cube sur un sol irrégulier cela pourrait rendre l'enclos moins sécurisé. La jupe anti-prédateur pourrait également vous faire trébucher.

N'utilisez pas de fort détergents, solvants ou javels pour nettoyer votre Eglu Cube, ils pourraient abîmer le plastique.

Ne gardez pas l'Eglu Cube près de sources de forte chaleur comme par exemple un feu d'artifice ou encore un barbecue cela pourrait mettre le feu à votre Eglu Cube.

N'utilisez pas l'Eglu Cube pour autre chose que de garder vos poules. Cela a été conçu uniquement pour ce but précis.

Ne gardez pas plus de 6 grosses poules, 8 poules moyennes ou 10 petites poules dans un Eglu Cube avec un enclos standard et son extension.

Verzamel de eitjes elke dag. Eitjes en de Eglu Cube laten liggen maakt de kippen broeds, waarna ze een aantal weken niet meer leggen.

Zorg dagelijks voor voedsel en water. Zonder verzorging gaan de kippen dood.

Laat uw kippen elke dag naar buiten. Bent u langer afwezig, laat het deurtje dan open, zodat de kippen in de ren kunnen. Ingesloten kippen raken gestresst en mogelijk ook oververhit.

Houdt kinderen bij de Cube en de kippen in de gaten. Kippen kunnen soms onverwachts pikken, ook naar mensen.

Wees voorzichtig met grasmaaien rond de Cube. Zowel de plensranden als de maaier kunnen beschadigd raken.

Was uw handen na contact met de Cube of de kippen.

Bedenk dat kippen scherpe snavels en klauwen hebben, en alles pikken en krabben dat lijkt op voedsel of anderszits interessant is. Vooral kleine glinsterende spullen trekken hun aandacht.

Zorg er voor dat de deur van de ren, en het achterpaneel goed dichtzitten. Anders is er altijd een risico dat een roofdier toegang heeft.

Ga niet klimmen of zitten op de ren. Dit is gevaarlijk en kan leiden tot beschadigingen.

Laat geen kinderen in de ren of in de Cube. Ze kunnen klem komen te zitten.

Laat de deur van de ren nooit open als uw kippen op stok zijn. Ze kunnen van roofdieren van streek raken en zichzelf verwonden.

Plaats de Eglu Cube nooit op een ongelijk oppervlak. De ren is dan niet veilig meer, en men kan struikelen over de flensranden.

Gebruik geen bleek, oplosmiddelen of sterke reinigers om de Eglu Cube te reinigen. Het plastic kan beschadigd raken.

Houd de Eglu Cube weg van open vuur, zoals kampvuren of barbecues, aangezien De Eglu Cube dan in brand kan vliegen.

Gebruik de Eglu Cube alleen voor het houden van kippen. Het is niet ontworpen voor andere doeleinden.

Plaats nooit meer dan 6 grote rassen of 10 krielkippen in de de Eglu Cube met ren en extensie.

Recoge y disfruta de tus huevos todos los días. Si se dejan los huevos en el Eglu Cube puede que la gallina se quede dueca y no ponga huevos durante unas semanas.

Asegúrate de que tus gallinas tengan comida y bebida. Sin comida ni bebida, tus gallinas morirán.

Saca a tus gallinas del gallinero Eglu Cube todos los días. Si estás fuera de casa, deja la puerta del gallinero abierta para que las gallinas puedan salir al corral por la mañana. No dejar salir a las gallinas puede dañar a las gallinas y recalentar el gallinero.

Cuida a tus niños cuando esté usando el gallinero Eglu Cube interactuando con las gallinas. Las gallinas pueden ser impredecibles y picar cualquier cosa incluyendo personas.

Ten especial cuidado cuando se usan corta céspedes alrededor de la falda del corral. Si no se tiene cuidado, se puede dañar las faldas con los corta céspedes.

Lávate las manos después de estar en contacto con el Eglu Cube y con las gallinas.

Hay que tener en cuenta que las gallinas tienen el pico y las garras afiladas y pueden atacar cualquier cosa que se asemeje a un alimento y las miradas son interesantes para ellas. Las pequeñas cosas brillantes son especialmente atractivas para las gallinas.

Asegurarse de que la puerta del corral y la parte trasera del corral esté bien amarrado, puesto que si no es así, los depredadores pueden entrar amenazando a nuestras gallinas.

No sentarse ni subirse al corral. Puede ser peligroso y además, podemos romper el corral.

No dejar a los niños entrar en el corral o en el gallinero Eglu Cube. Podría provocar que se quedasen atrapados dentro.

No dejes la puerta del corral abierta durante la noche. Esto comprometerá la seguridad de tus gallinas frente a todo tipo de depredadores.

No coloque el Eglu Cube en un terreno irregular, porque el corral perderá su seguridad. También puede hacer que la falda del corral sea una causa de tropiezo.

No utilice lejía, disolventes o detergentes fuertes para limpiar el Eglu Cube, puesto que podrían dañar el plástico.

No colocar el Eglu Cube cerca de focos inflamables, como hogueras o barbacoas, para no dar fuego al Eglu Cube.

No utilice el Eglu Cube para nada más que no sea utilizarlo para la cría de gallinas. No está diseñado para ninguna otra solución.

No críe más de 6 gallinas de tamaño grande, 8 gallinas de tamaño medio o 10 gallinas pequeñas en el Eglu Cube con el corral standard y la extensión.

Raccogliete e godetevi le vostre uova ogni giorno. Lasciare uova all'interno dell'Eglu Cube può indurre le galline a non deporre per qualche settimana.

Assicuratevi che le vostre galline abbiano sempre cibo e acqua. Senza di questi moriranno.

Lasciate che le galline razzolino liberamente fuori dall'Eglu ogni giorno. Se non siete in casa, lasciate pure la porta dell'Eglu Cube aperta in modo tale che le galline possano uscire nel recinto durante il giorno. Rinchiudere le vostre galline nell'Eglu può provocare loro forte stress, fino alla morte per surriscaldamento.

Sorvegliate sempre i vostri bambini quando usano l'Eglu Cube o interagiscono con le galline. Le galline possono essere imprevedibili e beccare qualunque cosa, persone incluse.

Siate particolarmente attenti quando usate il vostro tagliaerba vicino alla tela anti-tunnel intorno al recinto: potrebbe venire danneggiata.

Lavare sempre le mani dopo essere stati in contatto con le vostre galline e l'Eglu Cube.

Attenzione! Le galline hanno becchi affilati e artigli con i quali potrebbero beccare o graffiare oggetti che assomigliano a cibo o, in generale, qualsiasi cosa catturi la loro attenzione. Particolarmente graditi sono gli oggetti di piccole dimensioni che luccicano.

Controllare sempre che la porta del recinto e i pannelli posteriori siano ben chiusi. Se non vengono correttamente bloccati, il rischio che le vostre galline siano catturate e mangiate da altri predatori aumenta notevolmente.

Non sedersi o arrampicarsi sul recinto. Oltre ad essere pericoloso, questa azione può portare al danneggiamento del prodotto.

Non permettere ai bambini di entrare nell'Eglu Cube. Potrebbero rimanere bloccati.

Non lasciare la porta del recinto aperta durante la notte, mentre le vostre galline dormono. Questo ne comprometterebbe la sicurezza, permettendo ad eventuali predatori di avere accesso al recinto.

Non lasciare l'Eglu Cube su superfici irregolari in quanto questo renderebbe meno sicuro il recinto. Inoltre, potreste inciampare nella tela anti-tunnel.

Non usare sbiancanti, solventi o detergenti forti per la pulizia del vostro Eglu Cube: potrebbe danneggiarne la plastica.

Tenere l'Eglu Cube lontano da fonti di calore (es. falò, barbecue, ecc...): potrebbe prendere fuoco.

Non usare l'Eglu Cube se non come pollaio. E' stato concepito solo per questa funzione.

Non tenere più di 6 uccelli di taglia grande, 8 di taglia media o 10 di piccola taglia, all'interno di un Eglu Cube con recinto standard ed estensione.
