DOs

Follow the assembly instructions to make sure that the product works as intended. Make sure the run is secured and fully assembled before allowing your pet to use it. The run is designed to be used outdoors for years to come. However, we recommend that you check your run regularly for signs of corrosion especially if you live somewhere with extreme weather conditions or close to the sea. Corrosion will occur if the coating has been scratched or scraped for example. If you do see some, remove any loose rust and touch up with a weather resistant paint.

You should check your clips regularly for damage or fatigue. Compromised clips will affect the integrity of your run. You can buy spare clips on our website.

Children must be supervised when interacting with the system. It is not a toy.

Give your pets access to fresh feed and water at all times.

Do provide shade for your pets.

For full range of accessories go online.

Call or email us if you need further advice.

DON'Ts

Don't let children use any tools unsupervised.

Do not allow children to climb.

Do not position near fire, eg BBQs.
