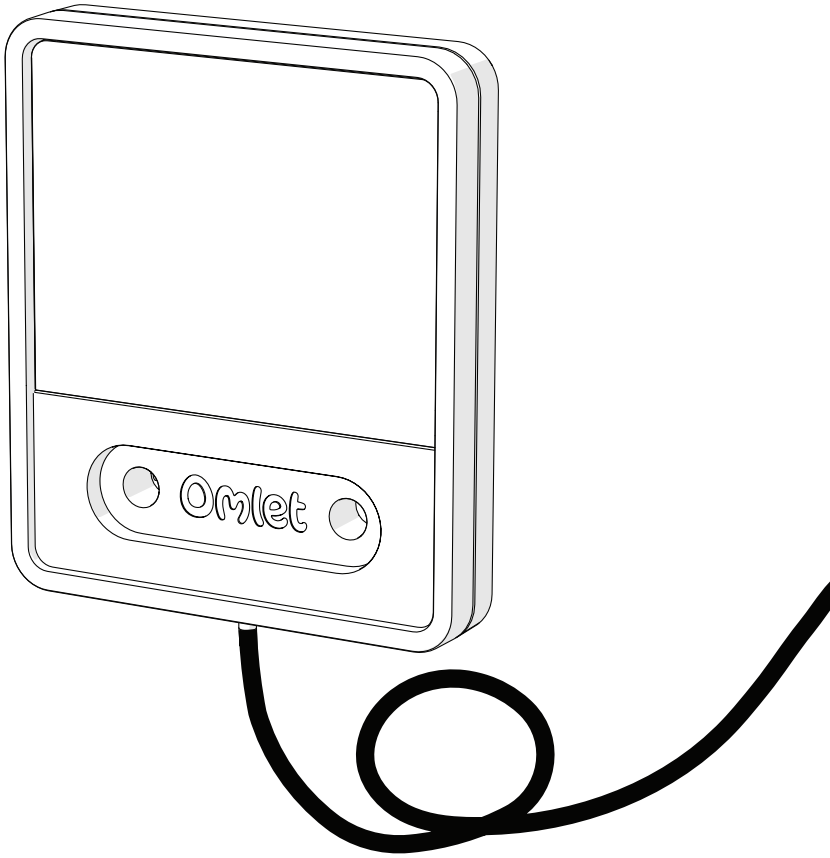
COOP LIGHT

Assembly guide



Omlet

EN Important Information! Please read before use

Thank you for buying an Omlet Coop Light. It is designed to work in harmony with your Omlet Autodoor. All you need to do is plug it into your Autodoor Control Panel, select Night Light mode and every evening it will guide your chickens back to the safety of their coop. Chickens are naturally attracted to bright places when the sun goes down and the Coop Light will make sure all of them are inside their coop before your Autodoor closes and keeps your pets safe from things that go bump in the night.

Omlet Coop Light is not a toy. You must follow the assembly instructions to make sure the product works as intended. Any other use beyond what is specified shall be considered as improper use. Any direct commercial or industrial use is also deemed to be improper. Omlet is not liable for any damage resulting from such use. The user alone bears the risk.

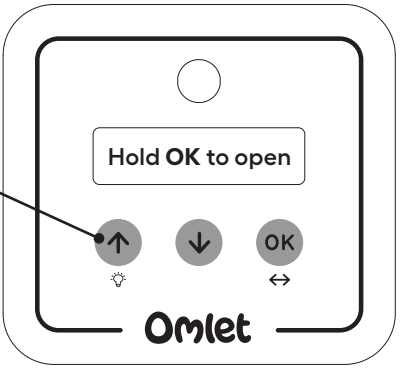
Neatly wrap up the remaining wire and secure it with a cable tie, out of the way of your chickens

27 Quickstart Guide

Scroll UP button

Press & Hold to turn light on/off



28 Control Panel Menu Adjustments

For general instructions on how to navigate through your Control Panel Menu, please refer to the main Autodoor Instruction Manual. To use the specific functions for the Coop Light in your Control Panel Menu, please see the instructions on the next page:

29 Manual Mode EN

Your coop light will turn off automatically again 2 minutes after it has been turned on.

1. Press & Hold ↑ button to turn the Coop Light On: | Light On..

2. Press & Hold ↑ button again to turn the Coop Light Off: | Light Off..

30 Time Mode

Your coop light will turn on at the time that you have scheduled your door to close. This will encourage your chickens to go inside the coop. After 5 minutes the door will close and the coop light will turn off.

1. Press ↓ to reach the mode menu item | 5. NIGHT LIGHT: N

2. Press & Hold OK to enable changing the value. The current option will flash | 5. NIGHT LIGHT: N

3. Use ↑ ↓ to change the option to YES | 5. NIGHT LIGHT: Y

4. Press & Hold OK to confirm the value change | -- SAVED --

31 Light Mode

Your coop light will automatically turn on around 5-10 minutes before your door closes. This will encourage your chickens to go inside the coop. The coop light will turn off when the door closes.

1. Press ↓ to reach the mode menu item | 7. NIGHT LIGHT: N

2. Press & Hold OK to enable changing the value. The current option will flash | 7. NIGHT LIGHT: N

3. Use ↑ ↓ to change the option to YES | 7. NIGHT LIGHT: Y

4. Press & Hold OK to confirm the value change | -- SAVED --
