CAUTION: Use the levers to safely lower the house after moving it. Do not allow your pet into the run while the house is raised. Otherwise, injury may occur and your house will be vulnerable to predators.

- **DE ACHTUNG:** Verwenden Sie die Hebel, um den Stall nach dem Versetzen sicher abzusetzen. Lassen Sie Ihre Hühner nicht in den Auslauf, solange der Stall erhöht steht. Andernfalls kann es zu Verletzungen kommen und es besteht das Risiko, dass Raubtiere eindringen können.
- **FR ATTENTION :** utilisez les leviers pour abaisser le poulailler en toute sécurité après l'avoir déplacé. Ne laissez pas vos poules entrer dans l'enclos lorsque le poulailler est relevé, pour éviter tout risque de blessure et ne pas les exposer aux prédateurs.
- **NL WAARSCHUWING:** Gebruik de hendels om het huisje veilig te laten zakken nadat je het verplaatst hebt. Laat je huisdier niet in de ren terwijl het huis omhoog staat. Anders kan er letsel ontstaan en is je huisje kwetsbaar voor roofdieren.
- **IT ATTENZIONE:** Utilizzare le leve per abbassare il pollaio in sicurezza dopo averlo spostato. Non consentire alle galline di entrare nel recinto quando il pollaio è sollevato per evitare qualsiasi rischio di lesioni e per proteggerle dai predatori.
- **SE VARNING:** Använd hävstångerna för att säkert sänka huset efter att det flyttats. Låt inte dina husdjur gå in på gården medan huset är upphöjt. Skador uppstår och ditt hus blir sårbart för rovdjur.
- **DK ADVARSEL:** Brug håndtagene til forsigtigt at sænke huset efter flytning. Lad ikke dit kæledyr komme ind i løbegården, mens huset er hævet. Ellers kan der opstå skader, og dit hus vil være sårbart over for rovdyr.
